01

## VISION

To be the preferred supplier of high grade security installations that are intelligent, dynamic and effective with a focus on exceptional customer service.

02

## POLICY

Our policy is “doing the job right first time”. This means fewer problems for the customer and ultimately less upkeep or additional expenses installation. After each job is completed we do follow-up reviews for additional quality checks and any queries will be attended to. In a nutshell we run a highly professional company and “pride ourselves in giving superior workmanship”.

03

## MISSION

To ensure that Pixels Connect Pte Ltd is dedicated to providing excellent professional security solutions through the continual training and education of our team members, who work together in close co-operation with a spirit of trust, to improve service and performance, so as to deliver exceptional value in the quality of our services and products.

04

## TECHNOLOGY

Our company believe in the future of Security & Smart Building Technology to offer local consumers advanced solutions in the fields of Security, low voltage, Automation and IT infrastructure. Our mission is to power up the market with the state of the art technology with a building management system that provides a clear and visible interface through which to manage a myriad of systems through a computer-based control system installed in a building. This help to control and monitor the building's mechanical and electrical equipment such as ventilation, lighting, power systems, fire systems, and security systems hence allowing for centralized management of critical infrastructure equipment, and ensures operations are being run securely and efficiently.

Established since 17 June 2014, Pixels Connect Pte Ltd offers complete security solutions for Surveillance Security Systems (CCTV Systems), Alarm systems, Bio-metric systems, PA systems etc. We also provide Electrical Related Works and Services and Solar Installation. We offer our services to all Commercial, Residential and Industrial consumers and provide services for commercial vehicles as well. We supply our home brand hardware for most of our security systems hardware and software.

We are a registered security service provider with SPF and BCA and we maintain continuous training to enables us to provide comprehensive security and surveillance products as well as technology solutions including small businesses to large enterprise projects.

We realized that finding the right security system is very crucial to you and hence we aim at providing you the best at the most competitive prices. Ranging from simple burglar alarms for home to highly customized surveillance systems equipped with CCTV cameras, we have everything that you ever need for the protection of your wellbeing and property.

# Solar Panel Installation

Contact us for more information or for booking a Free Site Visit.

A Free Site Visit will be done by us to assess your roof. The site visit is also a good time to clarify all questions and concerns.

Based on information gathered during the site visit we design a suitable Solar PV System for your house and give you a complete proposal with an estimation of yearly energy production, utility bill savings and obligation-free Quote. Sign the contract.

First, we will obtain necessary permission from authorities, then our well-trained team will install all the necessary components of the Solar PV System, and perform tests to make it ready for SP Service inspection and approval. When Installation is completed, SP Services will replace (free of charge) your old electricity meter with a bi-directional meter allowing for export and import of electricity.

**Consultation**

**Site Visit**

**Design & Proposal**

**Installation**

# Solar Panel Installation

Your Solar PV System is now generating electrical power that can be used on site or exported to Singapore Power to earn extra income.

**Commissioning & Turn-On**

All of our customers will enjoy a FREE Maintenance, Monitoring & Warranty package, we will continue to take care of your Solar PV System after commissioning.

We will regularly monitor the power output from your Solar PV System (if requested) to check that everything is going smoothly. Monitoring can be done remotely via the internet or via direct data download on site.

Inclusive in the package is a 10 year Solar System Product Warranty for all components and installation works.

A 25-year linear power output warranty for PV panels is provided by the PV panel manufacturer, ensuring that your PV System will deliver power as planned.

**Free Maintenance, Monitoring & Warranty on all Solar PV Systems**

# PRODUCTS & SOLUTIONS
